## **Pfizer Animal Health**

**Clinton A. Lewis Jr.**  
President, U.S. Operations

April 27, 2010

To Whom It May Concern:

Jeremy Baumann has worked for Pfizer Animal Health for the past year as a Content Development Specialist. During that time he has written and edited a variety of materials for both our Learning & Development Team, as well as for our New Product Marketing Division, who picked him up for a second contract after hearing good things about him from L&D.

Presidents are often asked to write about people they don't know, but in this case, I have worked elbow-to-elbow with Mr. Baumann who personally helped me edit a troublesome speech on the fly, while an impatient film crew stood by. Impressed by his abilities, I asked if he was typing 100 words a minute. He made me laugh out loud with his reply: "No sir, I wish. Barely 90." He edited nearly as fast. He then went on to reposition the camera to make me look better, and straightened my jacket.

If given the opportunity to utilize Mr. Baumann's talents again, I surely would. I believe he will do well with his next position at a pharmaceutical, an ad agency, or in any other area he decides to venture.

A handwritten signature in black ink, appearing to read "Clint Lewis".

Clint Lewis  
President, US Operations  
Pfizer Animal Health
